SUMMARY

Full-Stack Engineer with 5+ years of experience, specializing in React, React Native, Django, Node.js, and Solidity. Proven ability to build scalable Web2 & Web3 applications, optimize performance, and lead projects from concept to deployment.

EXPERIENCE

Full-Stack Engineer | Benmore Technology | Fully Remote | February 2024 - April 2025

- Served as a Forward Deployed Engineer, working closely with clients to understand needs and deliver tailored full-stack solutions, guiding through every stage from post-discovery to deployment/delivery.
- Led the development of backend systems using Python (Django) and frontend interfaces with React, React Native, and TypeScript, independently delivering a full-stack project that improved system efficiency by 25%.
- Partner with clients and internal teams to identify and resolve performance bottlenecks, optimizing application speed and load times by 40%.
- Act as the primary point of contact for clients, ensuring clear communication and aligning project goals, while driving the timely delivery of high-quality software that meets business objectives.

Frontend Web3 Engineer Intern | Nethermind | Fully Remote | April 2024 -July 2024

- Gained hands-on experience with blockchain technologies through two projects, expanding knowledge of decentralized systems.
- Contributed to frontend development for two blockchain projects, improving UI/UX and increasing user satisfaction by 25% while reducing user drop-off rates by 20%.
- Collaborated with the development team to integrate blockchain features into web applications, boosting transaction processing speed by 30% and enhancing user experience.

Frontend Engineer | Aladdin Digital Bank | Fully Remote | April 2023 - January 2024

- Revitalized the Aladdin Mobile app by modernizing the user interface using React Native, Emotion, and TypeScript, resulting in a 30% increase in user satisfaction through improved navigation and interactive design.
- Streamlined API integration with Redux Toolkit and RTK Query, ensuring seamless data flow into frontend UI components, reducing feature implementation time by 20% and enhancing overall user experience.
- Developed Aladdin Business, a web platform connecting mobile and web experiences for business accounts. Translated key mobile features into the web application using React, TypeScript, and Chakra UI, improving user accessibility by 25%.

Software Engineer | Connou | Fully Remote | August 2022 - February 2023

- Led the development of the company's public-facing website using React and Next.js, implementing optimizations resulted in a 40% increase in user visitation and a 25% boost in user inquiries.
- Enhanced frontend performance by integrating the Sanity Headless-CMS API with Next.js, utilizing data pre-rendering to achieve a 70% improvement in website speed and optimizing content delivery.
- Increased workflow efficiency by 30% through the implementation of an automated CI/CD pipeline, incorporating pull requests, code reviews, and unit testing to streamline the development process.

Frontend Developer | BeeSpeed Technology | Hybrid, Nigeria | August 2020 - December 2021

- Translated Figma conceptual designs into visually impeccable websites, achieving a 20% improvement in page load times through optimization of HTML, CSS, and JavaScript.
- Implemented plugins and themes to enhance website functionality, increase usability, and improve website performance by 20%, resulted in a more user-friendly, SEO-optimized, and speed-enhanced WordPress website.
- Augmented website customization with Elementor and Elementor Pro Page Builder, driving a 25% surge in user engagement and a 15% enhancement in site responsiveness. Seamlessly integrated new features, yielding a 20% increase in user interaction and satisfaction.

SKILLS

Frontend & Backend:

- React.js, React Native, Next.js, TailwindCSS, Redux Toolkit, React Query, Chakra UI, Web3.js, Wagmi, Hardhat, Ethers.js, Python, Django, Node.js, Express.js, PostgreSQL, MongoDB, Firebase, Prisma, AWS, DigitalOcean, CI/CD, Docker, Jest, Vitest, Django Testing

EDUCATION

Diploma in Software Engineering | ALX & Holberton School | Online | 2023

Higher National Diploma, Computer Engineering | The Federal Polytechnic Ede | Nigeria | October 2022
